REQUEST FOR TRIPLE SUPERPHOSPHATE

1937 AGRICULTURAL CONSERVATION PROGRAM

(Name of producer (s) signing work sheet)

(Address)

(Tenure)

I (we), the undersigned producer(s) on the farm covered by the above-numbered work sheet, hereby request the number of pounds of triple superphosphate (approximately 43 percent available P_2O_5) indicated below for use in accordance with and subject to the provisions of practice No. 11 of Southern Region Bulletin 101 in carrying out practice No. 11 on said farm in the manner indicated by the information set forth below. It is understood that I (we) am (are) to pay the cost of transportation from Sheffield, Ala., and the handling charges of any triple superphosphate obtained on the basis of this request, and that such triple superphosphate shall remain the property of the United States until and unless used in accordance with said provisions of Southern Region Bulletin 101. I (we) certify that this request is being made by all persons who intend carrying out soil-building practices on this farm under the 1937 Agricultural Conservation Program and that all representations and information contained herein are correct.

Practice No. 11 of Southern Region Bulletin 101 reads as follows:

"Sixteen percent superphosphate or its equivalent³ applied in 1937 on soil-conserving crops or pastures (excluding soybeans, cowpeas, velvet beans, and peanuts), but payment will not be made on an amount less than 100 pounds or in excess of 400 pounds per acre. Rate—\$0.50 per 100 pounds."

Amendment 7 to Southern Region Bulletin 101 adds the following section to part VI:

"Section 67. The Agricultural Adjustment Administration will make available at Sheffield, Ala., a supply of triple superphosphate (approximately 43 percent superphosphate) which, within the limit of such supply, may, upon request filed with the County Agent on Form SR-123, be obtained for application on the farm in accordance with the provisions of practice No. 11. If triple superphosphate is so obtained a deduction of 50 cents for each 16 pounds of available phosphoric acid contained therein shall be made from the soil-building allowance for the farm, and no payment will be made for carrying out practice No. 11 with the use of such triple superphosphate."

The soil-conserving crops referred to in practice No. 11 exclude the following: Soybeans, cowpeas, velvet beans, and peanuts.

The soil-conserving crops referred to in practice No. 11 include the following: Vetch, winter peas, clovers, alfalfa, kudzu, lespedeza, crotalaria, approved pasture grasses, and green manure crops classified as soil-conserving.

Pasture or name of each soil-conserving crop to be treated	Acres to be treated	RATE OF APPLICATION PER ACRE	
		Pounds 43 percent triple superphosphate	Equivalent pounds 16 percent superphosphate

Total pounds 43% triple superphosphate requested, pounds _____

Total pounds 43% material requested equals _____ pounds 16% material.

Estimated soil-building allowance for farm, \$ _____

Deduction for triple superphosphate, \$ _____

³For example, 100 pounds of 43 percent superphosphate is the equivalent of 300 pounds of 16 percent superphosphate."
